Summary

I am a passionate Web Application Developer specializing in Front-End Web Development. As a creative front-end developer, I excel at converting Figma designs into perfectly responsive web templates using React.js. I focus on creating a seamless user experience while ensuring optimal performance and scalability

Experience

- **Front-End Developer (Intern)**
  Creative IT Institute
  2026- Dhaka, Bangladesh

  My role is to convert UI to code with pixel perfection and maintain compatibility with all browsers. Add animation to keep the user experience. Optimising and scalability are my primary role.

Featured Project

Share Your Emotion (SYE) Social Media Platform

React js | Tailwind Css | Bootstrap | WordPress

It's a Social Media Platform. Major platform features include - create post, send friend request, add friends, cancel request, live post, live search functionality and many more.

More Challenges

- Live Search Functionality
- User and email verification and re-authorization
- Generate Verification Code
- Live profile picture upload
